

SYMBIO

A FAURECIA MICHELIN HYDROGEN COMPANY

ACCESS TYPE: PUBLIC STATUS: VALID

SYMBIO – A Hydrogen JV of Faurecia & Michelin

Industrial DNA from our shareholders...

faurecia

Integration programs with OEMs

Pilot line of fuel cell industrial production

20 years of R&D on fuel cell systems

Expert skills on fluid dynamics, catalysts and system modelling

SoA fuel cell stack concept with partners

Established industrial knowledge on industrial processes for key components of fuel cell systems

SYMBIO – A Hydrogen JV of Faurecia & Michelin

SITES

- **2021** : 1 production site (Vénissieux)
- **2030** : 3 production sites (Saint-Fons), China and North America

PRODUCTION

- **2030** : production of 200 000 StackPack / year

Employees

- **2020** : more than 350 employees
- **2030** : more than 1 000 employees

Training

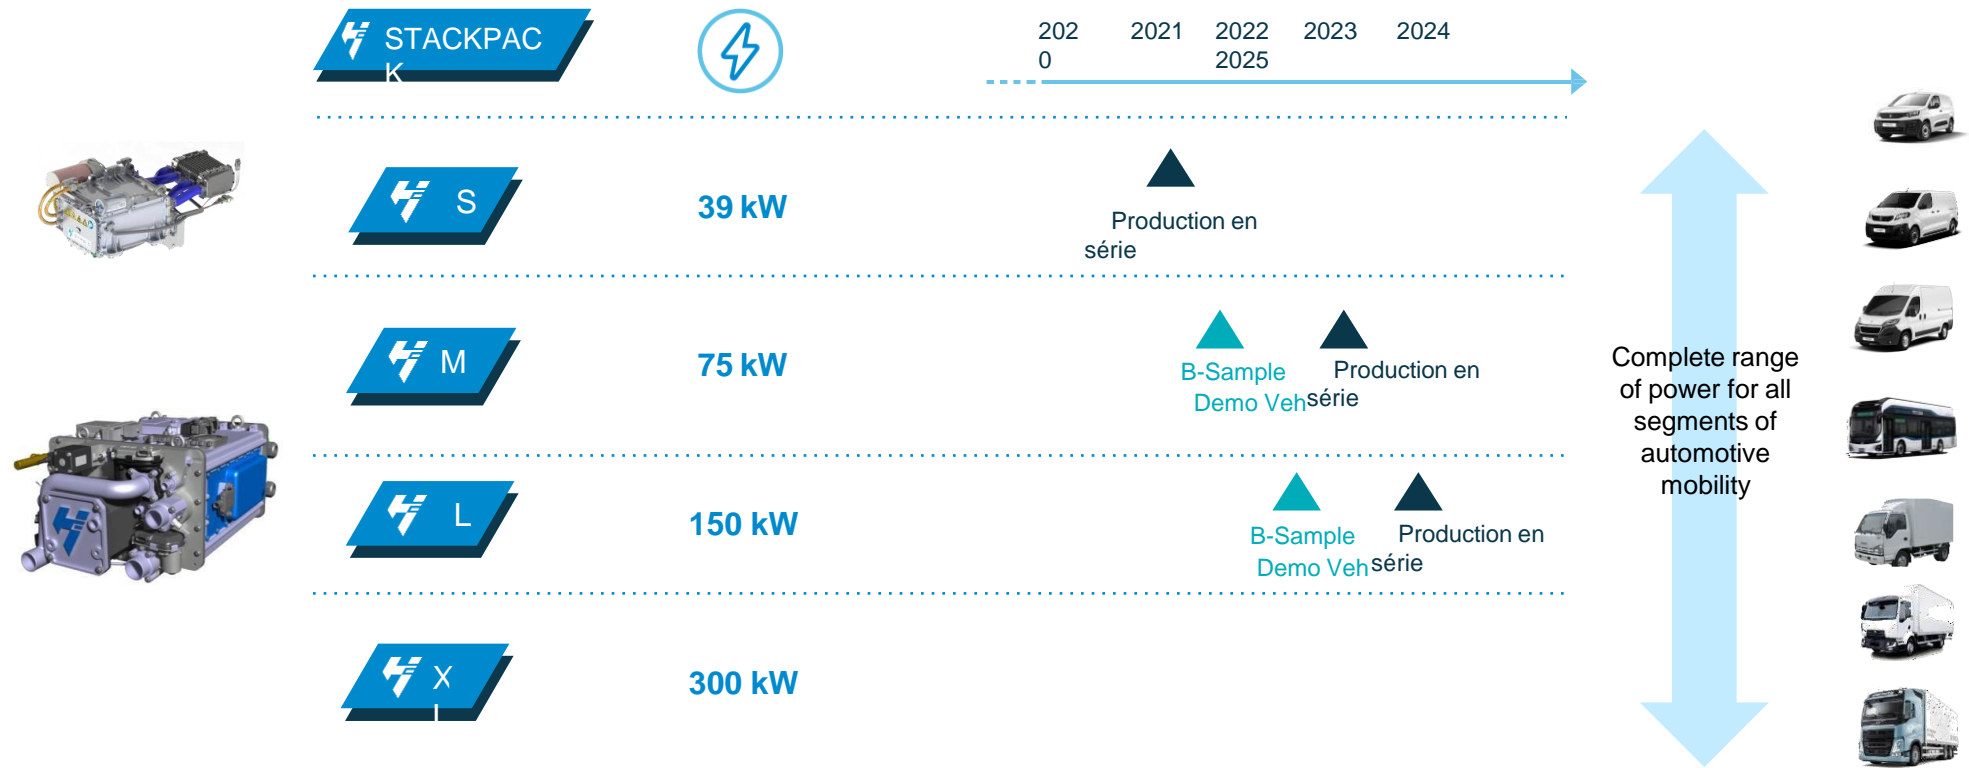

- 1 organisation dedicated to train and educate the future hydrogen jobs: Symbio Hydrogen Academy

SYMBIO – A Hydrogen JV of Faurecia & Michelin

Our range of products will cover most of mobility applications....

An aerial photograph of a dense forest with a river flowing through it. A wooden bridge spans the river. The trees are mostly green, with some yellow and orange foliage scattered throughout, suggesting an autumn setting. The river is dark blue and has some white rapids. The bridge is made of light-colored wood and has a simple railing.

We are ready to start our hydrogen story

Much appreciated for your attention!!!
